

THE SHE OFFICE

Here's to the softer side of our endeavors. Time to create homes for all the little things we value + adore... keepsakes, personal notes, reading material, etc. Get inspired + get creative as this little nook of your life should reflect you.

approx. time for initial project: 1 hour +shopping
maintain: oh, every so often

You'll need:

- a spot that you can call yours
- a vision of what you'd like your space to look like
- decorative containers that match your vision + decor
- various products

PLAN

Pick a spot... pick a fabulous little spot. Consider using your She spot or a place that isn't active. If you can avoid the kitchen that would be great~

Take some time to peruse the pages of your favorite catalogs... you'll find all sorts of charming spaces and products to use in your new SHE office.

THE PROCESS

There are 4 lil' projects that make up your She office

- The Inspiration Box
- The Correspondence Corner
- Keepsakes
- Reading Materials

1. Make Room

Set up your she-itt kit + get to work clearing out a space.

2. Create These Four Areas

The Inspiration Box

What inspires you? Quotes? Beautiful Cards? Gather these items up and place them in a special container. If you have a bulletin board and it fits your space that would work well too.

The Correspondence Corner

I love.love.love. a set of beautiful stationary. Gather up all your cards, paper, and stationary sets and find yourself favorite pen, a page of stamps, and a small stash of return envelope labels. These items deserve a special place housed in an area where you can sit down, relax, and jot a note to your girlfriends.

Keepsakes

Do you have cherished little items floating around in your junk drawers or dresser drawers? Maybe the shell you found on the beach or the BFF gold charm from your freshman year? I'm sure you have some photographs that mean the world to you. Display some, stash the rest in a beautiful box.

Reading Materials

This is the perfect spot to place the book you've been wanting to read or a couple of magazines you'd like to peruse to gather inspiration for your next project. A basket works great, placing the magazines standing up as opposed to lying flat... this way you can easily flip through them. And girlfriend...don't go overboard on the number of you keep stashed here!
