

THE FUNCTION + FABULOUS SHE LIST

I'm feeling the need to step back and take a look at my entire house. There are all sorts of little projects that need to be tackled + fabulousness that need to appear! And sister if I don't write it all down, it won't happen. Plus I ALWAYS feel better after I've gotten it off my chest- even if I don't tackle everything on my to-do list.

approx. time for initial project: 30 minutes
individual projects: will vary

You'll need:

- a clipboard
- your favorite pen

1. The SHE List

1. Start in one room, then work your way through your house.
2. Look around and identify what issues you are having in that space.
3. Is it a Function issue or a Fabulous issue?
4. Jot down the project or items you need to purchase.

Example:

SPACE/ISSUE	FUNCTION	FABULOUS
<i>Kids rely on me to look their friend's phone numbers</i>	<i>Buy them their own address book</i>	
<i>Family room/ pillows are grungy</i>		<i>Buy 3 new pillows</i>

Tips:

- You may want to write down the person responsible for the project in the box- for example... my son will have certain projects he'll be helping with.
- After going from room to room... go outside to the backyard + front yard... they are begging for your attention as well.
